This is UNEVALUATED Information

THE SOURCE EVALUATIONS IN THIS REPORT ARE DEFINITIVE.
 THE APPRAISAL OF CONTENT IS TENTATIVE.
 (FOR KEY SEE REVERSE)

1. New military buildings are under construction northeast of Klimentov, near Marianske Lazne (N 49-58, E 12-42), in an area approximately 1000x600 m., enclosed with barbed wire. The western boundary of the area is formed by the road leading from Klimentov to Valy (Schanze), while the northeastern boundary is formed by the stream Altbach. On the south, the road leading from Klimentov to Velka Hledsebe (Gross-Siehdichfür) (N 49-58, E 12-40) bounds the area.
2. The buildings under construction are to serve as barracks for an Air Force training establishment (Letecka skola). It is rumored that an airfield will be constructed in the northern tip of the fenced area.
3. The Armastav national building enterprise, Pilsen, is in charge of the construction. The work started in spring 1952 and the whole project is to be finished by 1955.
4. Labor consists of about 200 civilian workers and some 300 members of the PTP (auxiliary technical battalions). About 200 PTP-men are accommodated in wooden huts in the area; the rest are billeted in the barracks situated east of Hamrniky (Hammershauseln). The barracks near Hamrniky are occupied by a motorized infantry unit and only a small part of them is reserved for the PTP detachment.
